

**ADELE FURRIE  
CONSULTING INC.**

*Providing data to inform change*

**Have you ...** worked with **supported employment programs** to staff positions in your company?

**Are you ...** willing to talk with us about your experiences with supported employment programs?

**Adele Furrie Consulting Inc. has been contracted by the Mental Health Commission of Canada to complete an environmental scan of supported employment programs in Canada – particularly those programs that support individuals with severe mental health conditions.**

The inventory of supported employment programs will include information on the nature of support provided to individuals with disabilities and their employers, the demographics of the clients served, and success indicators from the perspective of the program.

**To ensure that we provide a complete picture of the effectiveness of these programs, we need the employer's perspective.** To obtain this information, we plan to conduct interviews with employers – both large and small – who have worked with supported employment programs to staff positions – both part-time and full-time – within their organizations. The interviews will be conducted over the telephone and will take no more than 15 minutes.

If you have any questions or if you would like to schedule an interview, please contact Adele Furrie at [adfurrie@rogers.com](mailto:adfurrie@rogers.com) or (613)266-3294.
